RACTF2020 Writeup – Solved In A Flash

Someone found a weird microcontroller sitting on the desk when they walked into the office this morning. They reckoned it was a challenge, so made an image of flash and sent it your way. Good luck!

100 Points

This was by far the easiest flag I was able to capture on RACTF2020!

Download the file flash.bin

Run strings against flash.bin

And there it is: ractf{Fl4shDump5Ar3VeryFun!!}
